**Wed., January 30, 2008
Danbury, CT**

*A Registered Program
of AIA/CES*

Isokern Fireplace, Bluestone Applications, Limestone, Imported Granite and Quartzite

■ Learning Objectives

At the end of this seminar, participants will understand...

- How to incorporate locally quarried stone such as granite, limestone, bluestone and quartzite into their designs
- How to specify proper installation details for ext. limestone
- How to capture the characteristics of hand quarried natural stone to enhance design objectives
- The evolution of the fireplace
- The various types of fireplaces on the market today
- How to choose a modular refractory fireplace system
- Conditions affecting the performance of vented fireplaces, and their solutions

■ Schedule

10:00 a.m. - 10:30 a.m.

Reception & Registration (Continental Breakfast)

10:30 a.m. - 10:45 a.m.

Introduction to the CEU workshop and overview of O&G Industries Earth Products Showcase

10:45 a.m. - 11:40 a.m.

CHAMPLAIN STONE, LTD. will present a wide selection of natural stone products that offer unique colors and textures. Demonstration on the variety of ways boulders, step slabs, wall stone and flagging can be incorporated into yards and gardens, including patios, heavy flagging, landscape walks and walls, oversized landscape steppers and waterscapes.

11:40 a.m. - 12:00 noon

Questions, Answers & Discussion

12 noon - 1:00 p.m.

Lunch

1:00 p.m. - 1:50 p.m.

OPEIL FLAGSTONE COMPANY will discuss Bluestone (sometimes called Flagstone). This stone, quarried locally, offers many options for filling the needs of any landscape application. Its natural cleft surface makes Bluestone unique and very appealing for walkways and patios. It is also widely used for steps, stone walls and free-form pool coping.

2:00 p.m. - 2:50 p.m.

ISOKERN FIREPLACE will present its modular fireplace system. Using new, improved materials, and manufactured under strict quality assurance guidelines, the Isokern Fireplace can be incorporated into any landscape design to enhance outdoor living spaces.

3:00 p.m. - 3:50 p.m.

O&G INDUSTRIES will discuss Limestone, Imported Granite and Dimensional Quartzite. The diverse color, texture and cost-effectiveness of these materials has created great demand for these products in commercial and residential projects. Installation details and results from test studies will be discussed.

3:50 p.m. - 4:00 p.m.

Questions, Answers & Discussion
